Limited 1 Year Warranty

PhoneNumbers, a division of 292 Technologies Inc. (hereafter referred to as "292"), warrants this product to be free from defects in workmanship and materials, under normal use and conditions, for a period of 1 year from the date of original purchase.

PhoneNumbers, a division of 292 Technologies Inc. (hereafter referred to as "292"), warrants this product to be free from defects in workmanship and materials, under normal use and conditions, for a period of 1 year from the date of original purchase.

This warranty is valid only if the United States of America and does not extend to the recovery of the product other than for the original purchaser. In Europe, all applicable laws or regulations, or otherwise, shall govern the terms and conditions of this warranty. This warranty is not transferable and shall only be valid for the original purchaser of the product.

Terms of Warranty:

The battery shall be returned in its original packaging and accompanied by a copy of the warranty registration card, if applicable. The battery must be returned within 30 days of the date of purchase. The battery must be shipped prepaid and insured to the address provided by PhoneNumbers. The battery will be repaired or replaced at PhoneNumbers' discretion. PhoneNumbers will pay for the return shipping charges. PhoneNumbers reserves the right to examine the battery to determine the cause of failure.

Consumer Product Safety Guide

IMPORTANT SAFETY INSTRUCTIONS

When used in the directed manner, this unit has been designed and manufactured to ensure your personal safety. However, improper use can result in potential electrical shock or fire hazards. Please read safety and operating instructions carefully before installation and use, and keep these instructions handy for future reference. Take special note of all warnings listed in these instructions and on the unit.

1. Water and Moisture – Do NOT immerse in water. Make sure the seal and surrounding surfaces are completely dry before opening to prevent moisture from damaging the electronic components and internal parts. Keep it away from other objects that can interfere with proper sealing. For any reason the seal is not making a tight seal, water may enter the unit.

2. Ventilation – The unit should be situated so that its location or position does not interfere with proper ventilation. For example, it should not be situated on a bed, sofa, rug, or similar surface that may block ventilation openings. It should not be placed in a built-in installation such as a bookcase or cabinet that may impede the flow of air through the ventilation openings.

3. Heat – The unit should be situated away from heat sources such as radiators, heat registers, stoves, or other appliances (including amplifiers) that produce heat.

4. Power Sources – The unit should be connected to a power supply only of the type described in the operating instructions or as marked on the appliance.

5. Cleaning – The unit should be cleaned only using a warm damp cloth. Do not use solvents, or any other chemicals.

6. Objects and Liquid Entry – Care should be taken so that objects do not fall into the unit and liquids are not spilled into any openings or vents located on the product.

7. Attachments – Do not attach attachments not recommended by the product manufacturer.

8. Lightning and Power Surge Protection –插头时要插回原插座，并将插头电源线插回原插座。如果将电源插头被从插座中拔出，则可能会造成干扰噪声。

9. Overloading – Do not overload wall sockets, extension cords, or other devices. This can result in a risk of fire or electric shock.

10. Damage Requiring Service – The unit should be serviced by qualified service personnel when:

- The power supply cable or plug has been damaged.
- Objects have entered the unit through the enclosure.
- The unit has been exposed to rain.
- The unit has been dropped or the enclosure damaged.
- The unit exhibits a marked change in performance or does not operate normally.

11. Periods of Inactivity – If the unit is to be left unused for an extended period of time, such as a month or longer, fully charge the battery and then turn it off and disconnect it from the power supply. This will help prevent damage to the battery and improve the overall performance of the unit.

12. Servicing – The user should not attempt to service the unit beyond those methods described in the operating instructions. Service methods not covered in the operating instructions may be necessary to prevent damage to the unit.

13. Service – The unit should not be serviced by anyone other than qualified service personnel. Service is required when the unit exhibits a marked change in performance or does not operate normally.

FCC Information

This device complies with Industry Canada RSS-210. Operation is subject to the following two conditions: (1) this device may not cause interference and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

This device complies with FCC Radiation exposure limits set forth for an uncontrolled environment. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician.

CAN ICES-3 (B)/NMB-3(B)

IC Statement

This device complies with Industry Canada RSS-210. Operation is subject to the following two conditions: (1) this device may not cause interference and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

The present set is not intended for use with any other equipment except for the equipment that is supplied with the device. Use of other equipment may cause interference with radio frequency and television signals.

The device meets the exemption for the FM radiation limits in section 1.5 of RSS 102 and compliance with RSS 102 exposure limits, users can obtain Canadian information on RF exposure and access to other information available from the دربته الترددات الإذاعية أو التلفزيونية، ومن الممكن أن يؤدي إلى تعطيل التوجيه الفريد.

Introduction

Thank you for purchasing the iHome iBT74. This product is designed to provide high quality wireless service to your iPhone, iPod, iPad, or other Bluetooth audio device. This instruction booklet explains the basic operation and care of the unit. Please read these carefully and keep for future reference.

Maintenance

- Place the unit on a level surface away from sources of direct sunlight or excessive heat.
- Protect your furniture when placing your unit on a natural wood and lacquered finish. A cloth or other soft material can damage the surface of the unit.

CAUTION: Improper use can result in potential electrical shock or fire hazards. Please read the instructions carefully and keep for future reference.

Maintenance

- Place the unit on a level surface away from sources of direct sunlight or excessive heat.
- Protect your furniture when placing your unit on a natural wood and lacquered finish. A cloth or other soft material can damage the surface of the unit.

Limited 1 Year Warranty

Phone Numbers, a division of 20th Century Fox Home Entertainment, Inc. (hereafter referred to as "20th Century Fox") represents this product to be free from defects in material and workmanship under normal use and conditions, for a period of 1 year from the date of original purchase.

Phone Numbers, a division of 20th Century Fox Home Entertainment, Inc. (hereafter referred to as "20th Century Fox") represents this product to be free from defects in material and workmanship under normal use and conditions, for a period of 1 year from the date of original purchase.

Always keep the battery out of the reach of infants and small children. The battery used in this device may present a risk of fire, explosion or chemical burn if mistreated. Many electronics retailers now recycle batteries and other electronic components at no charge. Check to see which ones in your area do so.

Please do NOT attempt to change the battery yourself. If the battery has died and you do not want us to replace the battery, you should return the product to us for repair information.

A. the power supply cable or plug has been damaged.
B. objects have fallen or liquid has been spilled into the enclosure of the unit.
C. the unit has been exposed to rain or moisture.
D. the unit has been dropped or the enclosure damaged.
E. the unit exhibits a marked change in performance or does not operate normally.

The unit should be serviced by qualified service personnel.

The unit should be situated so that its location or position does not interfere with radio communications.

Le dispositif rencontre l'exemption des limites courantes d'évaluation dans la section 2.5 de RSS 102 RF exposure, users can obtain Canadian information on RF exposure.

The device meets the exemption from the routine evaluation limits in section 2.5 of RSS 102 and CAN ICES-3 (B)/NMB-3(B).

NOTE: This warranty will only take effect for those to which it has been assigned, which have been directly damaged in normal operation or used within the oven or within microwave, or otherwise as outlined in the instruction manual. This warranty is valid only for products purchased by the original owner from an authorized representative of the manufacturer.

This warranty shall be void if the product or any part thereof is repaired or altered by anyone other than the manufacturer. The manufacturer is not liable for any defects or damage caused by such repair or alteration.

This warranty is the exclusive remedy. In no event will the manufacturer be liable to you or any third party for any consequential or incidental damages, actual, indirect, special, punitive, or exemplary damages, lost profits, or costs of any nature including the cost of recovery, reinstatement, or comparable replacement.

This warranty is valid only in the United States of America and does not extend to owners of the product other than to the original purchaser. Should this fail to resolve the matter and service still be required by reason of any defect or malfunction during the warranty period, SDI will repair or, at its discretion, replace this product without charge. This decision is subject to the terms and conditions set forth herein.

Your acknowledgement and agreement to fully and completely abide by the above mentioned disclaimer of warranty is a condition precedent to any such service or repair. In no event will SDI or any of its affiliates, contractors, resellers, their officers, directors, shareholders, assigns, or agents be liable to you or any third party for any consequential or incidental damages, any lost profits, actual, indirect, special, punitive, or exemplary damages, lost profits, or costs of any nature including the cost of recovery, reinstatement, or comparable replacement.

This warranty is valid only if the product is used for the purpose for which it was designed. It does not cover (i) products purchased. Should this fail to resolve the matter and service still be required by reason of any defect or malfunction during the warranty period, SDI will repair or, at its discretion, replace this product without charge. This decision is subject to the terms and conditions set forth herein.

Declaration ID D024962

Introduction

Thank you for purchasing the iHome iBT74! This product is designed to provide high quality wireless audio for your iPhone, iPod, or other Bluetooth audio device.

This instruction booklet explains the basic operation and care of the unit. Please read through carefully and keep for future reference.

Maintenance

- Place the unit on a level surface away from sources of direct sunlight or excessive heat.
- Protect your finish when placing your unit on a wooden table and polished finish. A cloth or other protective material should be placed between the unit and the furniture.
- Clean your unit with a soft cloth only with mild soap and water. Strong cleaning agents, such as benzene, thinner or similar materials can damage the surface of the unit.

Internal Rechargeable Lithium-Battery

This device uses an internal rechargeable lithium battery that should not be attached to the device. If you suspect that your battery may be damaged, please contact us for information. To check the battery's charge, please refer to the instruction manual.

WARNING/DISPOSAL OF UNIT

Please do NOT attempt to alter the battery cover. If the battery has failed and you do not want to replace the battery, you should return the product to us for repair information. The battery does not contain hazardous materials.

- Always dispose of used batteries in accordance with the prevailing community regulations that apply to the disposal of hazardous waste.
- If you suspect that your battery may be damaged, please refer us for repair information.

CAUTION

The battery used in this device may present a risk of fire, explosion or chemical burn if mistreated. Always keep the battery out of the reach of infants and small children.

- Please store the battery in a cool, dry place.
- Do not subject the battery to excessive heat.
- Do not attempt to disassemble or modify the battery.
- Do not expose the battery to any sharp objects.
- Do not attempt to recharge the battery.
- Do not disassemble or dispose of the battery or attempt to replace the original battery.
- Do not expose the battery to water.
- Do not attempt to charge the battery.

Pairing with a Different Device

When you power ON the speaker, it will automatically link with the previously paired Bluetooth device as long as that device is still within range (about 30 feet). To pair with a different device follow steps 1-4 under “Pairing Your Device” on previous page.

Troubleshooting

Trouble pairing device with iBT74
Bluetooth implementation varies depending on your device’s hardware and operating system. Please see our website for updates on pairing.

Unit doesn’t respond (locked up/ “frozen”)
If, after several attempts, by turning the unit on and off, the unit still does not respond, try the following:

1. Make sure the unit is on
2. Make sure your device is properly paired with the iBT74.
3. Make sure the unit is within 30 feet.

Unit doesn’t respond (no power)

1. Press and hold the Power/Off Switch button for 10 seconds. Note that doing so will clear settings, and any Bluetooth devices will need to be re-paired.
2. Make sure the unit is on.
3. Make sure your device is paired with the iBT74.
4. Check that all connections are secure and properly plugged in.
5. Make sure your device is powered on.

Getting Started: Carry Strap

The iBT74 has two channels to attach the included carry strap, one on the bottom to hang the unit like a lantern, and one on the lower back of the unit. To attach the carry strap, form a small loop in one end of the strap and connect the loop back through the larger loop formed in the carry strap to tighten.

CHARGE UNIT BEFORE USE/KEEP UNIT OFF FOR FASTER CHARGING

1. Connect micro USB charging/audio cable to the Charging/Aux-in USB Port on the side of the unit and connect the other end of the cable to a computer or USB AC adaptor to charge your iBT74.

Using Color Modes

There are five color modes, which you cycle through in this order:

- Slow Fades (slows down fade from one mode to the next): Initial colors (initial color is blue)
- Color Change (color change rapidly)
- Pulse to Music (light flashes to the beat of the music)
- Pulse to AUX (light pulses to the beat of AUX audio)
- Fast Change (light changes quickly from orange to yellow to blue to green)

1. To review the charging status of the unit, slide the Power/Off Switch to OFF to turn the unit OFF. Remember to turn the unit OFF after using.

Playing Audio via Bluetooth

1. Connect micro USB charging/audio cable to the Charging/Aux-in USB Port on the side of the unit and connect the other end of the cable to a computer or USB AC adaptor to charge your iBT74.
2. Press and hold the Power/Off Switch button for 3 seconds to switch the iBT74 to OFF. The unit will enter battery review mode.
3. Power on the audio device and use the controls on the device to play the music.

Using Color Modes

There are five color modes, which you cycle through in this order:

- Slow Fades (slows down fade from one mode to the next): Initial colors (initial color is blue)
- Color Change (color change rapidly)
- Pulse to Music (light flashes to the beat of the music)
- Pulse to AUX (light pulses to the beat of AUX audio)
- Fast Change (light changes quickly from orange to yellow to blue to green)

1. To review the charging status of the unit, slide the Power/Off Switch to OFF to turn the unit OFF.

Playing Audio via Aux In

1. Connect micro USB charging/audio cable to the Charging/Aux-in USB Port on the side of the unit and connect the other end of the cable to a computer or USB AC adaptor to charge your iBT74.
2. Press and hold the Power/Off Switch button for 3 seconds to switch the iBT74 to OFF. The unit will enter battery review mode.
3. Power on the audio device and use the controls on the device to play the music.

Using Color Modes

There are five color modes, which you cycle through in this order:

- Slow Fades (slows down fade from one mode to the next): Initial colors (initial color is blue)
- Color Change (color change rapidly)
- Pulse to Music (light flashes to the beat of the music)
- Pulse to AUX (light pulses to the beat of AUX audio)
- Fast Change (light changes quickly from orange to yellow to blue to green)

1. To review the charging status of the unit, slide the Power/Off Switch to OFF to turn the unit OFF.

Troubleshooting

Trouble pairing device with iBT74
Bluetooth implementation varies depending on your device’s hardware and operating system. Please see our website for updates on pairing.

Unit doesn’t respond (locked up/ “frozen”)
If, after several attempts, by turning the unit on and off, the unit still does not respond, try the following:

1. Press and hold the Power/Off Switch button for 10 seconds. Note that doing so will clear settings, and any Bluetooth devices will need to be re-paired.
2. Make sure the unit is powered on.
3. Make sure your device is properly paired with the iBT74.
4. Make sure your device is working properly. Check your device’s manual for details on Bluetooth pairing and linking.

For more information and to see the latest instructions, visit our website: support.
Pairing Your Device

When you turn ON the iBT74, it will automatically look for the previously paired Bluetooth device or devices—i.e., the iBT74 becomes discoverable. To pair with a different device:

1. Turn on your Bluetooth device and make it "discoverable" by turning on Bluetooth in your device's settings.
2. Slide the Power On/Off Switch to ON to turn the iBT74 ON. The first time the unit is powered on, it will automatically enter Bluetooth discovery mode and attempt to connect to any Bluetooth device it senses within range. If you have previously paired Bluetooth devices, the iBT74 will remember them and attempt to reconnect to the nearest one.
3. Press and hold the Color Mode Button for 2 seconds. The iBT74 will beep and display a Bluetooth status indicator next to the unit to signify that it is ready to pair.
4. "iHome iBT74" should appear in your device's Bluetooth menu. If "Not Paired", "Not Connected" or similar message appears, select "iHome iBT74" to connect it. If prompted for a passkey, enter your Bluetooth passkey (usually "0000" or four 0s), then press the Color Mode Button to confirm the passkey.
5. When done listening, slide the Power On/Off Switch to OFF to turn the unit OFF. Remember to turn off your device, too.

Using Color Modes

There are six color modes, which you cycle through in this order:

- Color Mode Button
- Color Mode Button
- Color Mode Button
- Color Mode Button
- Color Mode Button
- Color Mode Button

To review the charging status of the unit while it is charging, press and hold the Color Mode Button. The cabinet lights will flash green for 2 seconds. The iBT74 will then display a battery indicator next to the unit to signify that it is ready to pair.

Troubleshooting

Unit doesn't respond (no power)

- Check that all connections are secure and properly plugged in.
- Make sure your device is properly paired with the iBT74.

Unit doesn't respond (locked up/"frozen")

If the device is not responding, try restarting it. Press and hold the "+" and "-" buttons for 2 seconds. If the device still doesn't respond, try resetting it. Press and hold both the "+" and "-" buttons for about 10 seconds. If the device still doesn't respond, try replacing the batteries.

TROUBLEPAIRING DEVICE WITH IB74

Bluetooth implementation varies depending on your device's hardware and operating system. Please see your device's manual for details on pairing your device to a Bluetooth device. If you have previously paired the iBT74 to your device, it will automatically attempt to reconnect the next time you turn ON the device. If you have not previously paired the iBT74 to your device, you will need to enter the passkey to pair with your device.
Pairing with a Different Device

1. Turn on your Bluetooth device and make it "discoverable" by turning on Bluetooth mode (check in Options or Settings).
2. Slide the Power On/Off Switch to ON to turn on the iBT74. The first time the unit is powered on, it will automatically enter auto-pairing mode and attempt to connect to a Bluetooth device (if so, skip to step 4). Otherwise, follow step 3 to begin pairing.
3. Press and hold the Bluetooth/Speakerphone Button for 2 seconds. The iBT74 will beep and the Bluetooth status indicator light on the unit will flash quickly.
4. "Phone iBT74" should appear in your device's Bluetooth menu. If "Not Paired," "Not Connected" or similar message appears, select "Phone iBT74" to connect. If prompted for passcode, enter 12345 (on your device).
5. If pairing is successful, 1 beep will sound and the Bluetooth status indicator light will appear solid blue. (In Color Mode, color will flash blue twice, indicating the iBT74 is ready to play music. There should also be an indication on your device). If device is successfully paired within 5 minutes, the iBT74 will default to previous mode. Once the iBT74 is paired to a device, it will attempt to autolink when the device is within range (about 30 feet).

Troubleshooting

If a device does not respond, try powering down the unit. Press and hold the "on" and "off" buttons at the same time for about 10 seconds. If that does not help, any Bluetooth devices will need to be re-paired.

Trouble pairing device with iBT74

Bluetooth implementation varies depending on your device’s hardware and operating system. Please see our website for updates on pairing.

Unit doesn’t respond, locked up/ "frozen"

If a device does not respond, try powering down the unit. Press and hold the “on” and “off” buttons at the same time for about 10 seconds. If that does not help, any Bluetooth devices will need to be re-paired.
Pairing with a Different Device

To pair your iBT74 with a different device:

1. Make sure your device and the iBT74 are powered on.
2. Go to your device’s Bluetooth settings to turn on pairing mode.
3.Press and hold the Bluetooth/Speakerphone button for 2 seconds. The unit will sound a “beep” and the Bluetooth status indicator light will appear solid blue.
4. Make sure both devices are within 30 feet of each other.
5. If pairing is successful, 1 beep will sound and the Bluetooth status indicator light will appear solid blue. (In Color Mode, color will flash blue twice, indicating the iBT74 is ready to play music. This should also be an indication on your device. If the device is successfully paired within 3 minutes the iBT74 will default to the previous device.

Troubleshooting

If you cannot pair your device, try:

- Make sure both devices are in range of each other.
- Check that both devices are powered on.
- Check that the Bluetooth feature is enabled on both devices.
- If you are using a laptop, make sure the Bluetooth feature is enabled on your computer.
- If you are using a smartphone, make sure the Bluetooth feature is enabled on your smartphone.
- If you are using a tablet, make sure the Bluetooth feature is enabled on your tablet.

If you still cannot pair your device, please visit our website for further information and support.

www.ihome.com/support
Pairing with a Different Device

1. Turn on your Bluetooth device and make it “discoverable” by turning on Bluetooth mode (check on your device’s menu or Settings).

2. Slide the Power On/Off Switch to ON to turn on the iBT74. The first time the unit is powered on, it will attempt to connect to a Bluetooth device (if there is one on the working outlet or previously paired). If not, follow step 3 for manual pairing.

3. Press and hold the Bluetooth/Speakerphone Button for 2 seconds. The iBT74 will look for a Bluetooth device. The Report Display on the bottom will flash blue.

4. “Pair the iBT74” should appear in your device’s Bluetooth menu. If “Not Paired,” “Not Connected” or similar message appears, select “Pair the iBT74” to connect it. If prompted for a passcode, enter “1234” on your device.

5. If pairing is successful, 1 beep will sound and the Bluetooth status indicator light will appear solid blue. In Color Mode, color will flash blue twice, indicating the iBT74 is ready to play music. There should also be an indication on your device. If no device is successfully paired within 3 minutes the iBT74 will default to manual pairing.

6. Once the iBT74 is paired to a device, it will attempt to auto-pair when you plug in the micro USB charging/audio cable. If the device is still within range (approx. 30 feet), it will connect to the iBT74 automatically.

Troubleshooting

Pairing with a Different Device

If you are having trouble pairing, try the following:

1. Confirm that your device is powered on and linked to a Bluetooth phone to receive a call.

2. When a call is completed, press the Bluetooth/Speakerphone Button to answer the call. For call waiting function, press the button again to answer the second call, and resume connection to the original call.

3. When a call is connected, press the Bluetooth/Speakerphone Button to end the call and resume previous function.

4. Press and hold the Bluetooth/Speakerphone Button when the device is powered off to power on the iBT74.

5. When the device is re-paired, the iBT47 will turn on automatically and attempt to connect to the last previously paired Bluetooth device (if the device is still within range, approx. 30 feet). To pair with a different device you must turn off Bluetooth capability on the already paired device, or take it out of range.

6. For further information and to see the latest instructions, visit www.ihome.com/support.

1. The iBT74 has two channels to attach the included carry strap, one on the bottom to hang the unit like a lantern, and one on the lower back of the unit. To attach the carry strap, form a small loop in one end of the carry strap. Insert this loop through the desired channel, then pull the loop back through the larger loop formed in the carry strap to tighten.

2. CHARGE UNIT BEFORE USE/KEEP UNIT OFF FOR FASTER CHARGING

3. To review the charging status of the unit while it is charging, press and hold the Color Mode Button. When the unit is fully charged, the indicator LED on top of the unit will turn solid red.

4. When device is paired and not charging, the indicator LED will turn blue.

5. Make sure your device is paired with the iBT74.

6. Make sure unit is completely charged.

7. If pairing is successful, 1 beep will sound and the Bluetooth status indicator light will appear solid blue. In Color Mode, color will flash blue twice, indicating the iBT74 is ready to play music. There should also be an indication on your device. If no device is successfully paired within 3 minutes the iBT74 will default to manual pairing.

8. Once the iBT74 is paired to a device, it will attempt to auto-pair when you plug in the micro USB charging/audio cable. If the device is still within range (approx. 30 feet), it will connect to the iBT74 automatically.
Pairing Your Device
Pairing is the setup process to introduce your Bluetooth-capable device to the iBT74. Once your device is paired, the iBT74 can recognize it and you can play your audio through it.

1. Connect the included micro USB charging/audio cable to the USB port on the back of the unit. To attach the carry strap, form a small loop in one end of the carry strap and clip to the lower loop on the bottom to hang the unit like a lantern, and one on the lower loop on the side of the unit.

2. Slide the Power On/Off Switch to ON to turn the unit ON. When you power ON the speaker, it will automatically link with the last previously paired Bluetooth device.

3. When done, slide the Power On/Off Switch to OFF to turn the unit OFF. Remember to turn off your device, too.

Using the iBT74

- **Color Mode Button:**
  - a. Slow Fade (colors slowly fade from one into the next)
  - b. Fast Change (colors change rapidly)
  - c. One Color (select a favorite color)
  - d. Pulse to Music (lights flash to the beat of the music)
  - e. Preset Pulsing (each light array pulses through its own preset pattern of colors)
  - f. Off (no display)

There are six color modes, which you cycle through in this order:

- **Volume Buttons**

- **Power On/Off Switch**

- **Bluetooth/Speakerphone Button**

- **Playing Audio Via Bluetooth**

1. Connect mini USB charging/audio cable to the Charging/Aux-in USB Port on the side of the unit. Connect 3.5mm audio plug end to the headphone or line-out jack on your audio device.

2. Slide the Power On/Off Switch to ON to turn the unit ON.

3. Power on your audio device and use the control on the device to play or pause audio and to navigate tracks.

4. Press the + or – Button to adjust the volume.

5. When done listening, slide the Power On/Off Switch to OFF to turn the unit OFF. Remember to turn off your device, too.

Troubleshooting

**Unit doesn’t respond (locked up/ “frozen”)**

If a call is received, playing music is muted to hear the ring tone and the cabinet lights flash. Press the Bluetooth/Speakerphone button to answer the call. For call waiting function, press the button again to answer the second call, and once more to return to the original call.

**Unit doesn’t respond (no power)**

- **Check that all connections are secure and properly plugged in.**
- **Make sure your device is properly paired with the iBT74.**
- **Make sure the unit is on.**

**Trouble pairing device with iBT74**

Bluetooth implementation varies depending on your device’s hardware and operating system. Please see your device’s support website for pairing instructions.

What’s Included
- iBT74 speaker
- Combination micro USB to USB charging cable/audio in cable
- Carry strap

Pairing with a Different Device
1. Turn off your Bluetooth device and make it “discoverable” by turning on Bluetooth mode (check in Options or Settings).
2. Slide the Power On/Off Switch to ON to turn on the iBT74. The red on-off light will go off, and a window will appear to connect to a Bluetooth device (if there is no music). Otherwise, follow steps 3-5 for large pairing.
3. Press and hold the Bluetooth/Speakerphone Button for 2 seconds. The iBT74 will beep and the Bluetooth status indicator light will appear solid blue (in paired, the iBT74 can recognize it and you can play your audio through it).
4. When done listening, slide the Power On/Off Switch to OFF to turn off the unit. Remember to turn off your device, too.

Pairing is the set-up process to introduce your Bluetooth-capable device to the iBT74. Once your device is paired, the iBT74 can recognize it and you can play your audio through it.

Getting Started: Carry Strap
The iBT74 has two channels to attach the included carry strap, one on the bottom to hang the unit like a bag, and one on the lower back of the unit. To attach the carry strap, form a small loop in one end of the carry strap. Insert this loop through the desired channel, then pull the loop back through the larger loop formed in the carry strap to tighten.

Charging the Unit
1. Connect micro USB charging/audio cable to the Charging/Aux-in USB Port on the side of the unit.
2. Power on the audio device and use the controls on the device to play or pause audio and to select the desired color.
3. To review the charging status of the unit while it is charging, press and hold the Color Mode Button. The cabinet lights will flash and built-in voice will announce the current battery level.

Using the iBT74
1. Press and hold the Bluetooth/Speakerphone Button when the unit is on to turn on the iBT74 and press and hold again to turn it off.
2. Press the Bluetooth/Speakerphone Button repeatedly to cycle to the desired color mode. For One Color mode, first cycle to Fast Change mode and press the Color Mode Button when the desired color appears. For Pulse to Music, turn the volume to Fast Change mode and turn the iBT74 volume fully charged.
3. To review the charging status of the unit while it is charging, press and hold the Color Mode Button. The cabinet lights will flash and built-in voice will announce the current battery level.

Pairing with a Different Device
1. Turn off your Bluetooth device and make it “discoverable” by turning on Bluetooth mode (check in Options or Settings).
2. Slide the Power On/Off Switch to ON to turn on the iBT74. The red on-off light will go off, and a window will appear to connect to a Bluetooth device (if there is no music). Otherwise, follow steps 3-5 for large pairing.
3. Press and hold the Bluetooth/Speakerphone Button for 2 seconds. The iBT74 will beep and the Bluetooth status indicator light will appear solid blue (in paired, the iBT4 can recognize it and you can play your audio through it).
4. When done listening, slide the Power On/Off Switch to OFF to turn off the unit. Remember to turn off your device, too.

Troubleshooting
Bluetooth implementation varies depending on your device’s hardware and operating system. Please see your device’s manual for details on Bluetooth pairing and taking.

For further information and to see the latest instructions, visit www.iHome.com/support
Pairing with a Different Device

When you power ON the speaker, it will automatically link with the previously paired Bluetooth device as long as that device is still within range (up to 30 feet). To pair with a different device follow steps 1-4 of the previous page.

1. Connect micro USB charging/audio cable to the Charging/Aux-in USB Port on the side of the unit and connect the 3.5mm audio plug end to the headphone or line-out jack on your audio device.

2. When a call is received, playing music is muted to hear the ring tone and the cabinet lights flash.

3. Press and hold the Bluetooth/Speakerphone Button for 2 seconds. The iBT74 will beep and the Bluetooth status indicator on top of the unit will flash blue.

4. When done listening, slide the Power On/Off Switch to OFF turn the unit OFF. Remember to turn off your device, too.

5. To review the charging status of the unit while it is charging, press and hold the Power On/Off Switch. The cabinet lights will flash blue and red.

6. If pairing is successful, the iBT74 will be paired to the Bluetooth device. A notification message appears on your device.

Using the iBT74

Getting Started: Carry Strap

The iBT74 has two channels to attach the included carry strap, one on the bottom to hang the unit like a lantern, and one on the lower back of the unit. To attach the carry strap, form a small loop in one end of the carry strap. Insert this loop through the desired channel, then pull the loop through the larger loop formed in the carry strap to tighten.

Charging the Unit

CHARGE UNIT BEFORE USE/KEEP UNIT OFF FOR FASTER CHARGING

1. Connect the standard USB plug end of the cable to a power USB port on a computer, a USB AC adaptor or a computer USB port.

2. Connect the micro USB plug end of the cable to a power USB port on a computer or to the upper right corner of the iBT74.

3. Power on the audio device and use the controls on the device to play or pause audio and to navigate tracks.

4. Press \x26gt; or \x26lt; to adjust the volume button. You can also adjust volume via your device.

5. When done listening, slide the Power On/Off Switch to OFF turn the unit OFF. Remember to turn off your device, too.

Using Color Modes

There are six color modes, which you cycle through in this order:

- a. Slow Fade (colors slowly fade from one into the next)
- b. Fast Change (colors change rapidly)
- c. Audio Mode
- d. Manual mode of the iBT74
- e. iBT74 mode
- f. Off (no display)

There are two additional indicators to the left and right of the unit. These two indicators are indicators for Battery Level and Bluetooth Status.

Using Bluetooth

The iBT74 is ready to play music. There should also be an indication on your device. If device is successfully paired within 3 minutes the iBT74 will default to previous modes. Once the iBT74 is paired to a device, it will attempt to autoswitch when the device is within range (about 30 feet).

Troubleshooting

Trouble pairing device with iBT74

Bluetooth implementation varies depending on your device’s hardware and operating system. Please see your device’s manual for details on pairing and linking. You may need to enter your Bluetooth PIN on your device or select your iBT74 from the list of available devices.

Trouble charging device with iBT74

iBT74 does not respond (no power)

- Make sure the speaker is completely charged.
- Check that all connections are secure and properly plugged.
- Make sure the unit is properly paired with the iBT74.
- Make sure the unit is in ON.

Trouble charging device with iBT74

iBT74 doesn’t respond (locked up/“frozen”)

If a device does not respond, try pressing the Power On/Off Switch. Press and hold until the “on” and “off” buttons are lit simultaneously. Once the iBT74 is turned on, try the following:

- Press and hold until the “on” and “off” buttons are lit simultaneously.
- If the iBT74 still does not respond, try the following:

Consumer Product Safety Guide

IMPORTANT SAFETY INSTRUCTIONS

When used in the directed manner, this unit has been designed and manufactured to ensure your personal safety. However, improper use can result in potential electrical shock or fire hazards. Please read all safety and operating instructions carefully before installation and use, and keep these instructions handy for future reference. Take special note of all warnings listed below.

13. C. the unit has been exposed to rain.

12. B. objects have fallen into or liquid has been spilled into the enclosure.

D. the unit has been dropped or the enclosure damaged.

4. Power Sources - The unit should be connected to a power supply only of the type described in the operating instructions or as marked on the appliance.

3. Cleaning - The unit should be cleaned only using a warm damp cloth. Do not use solvents, abrasives or strong detergents.

2. Ventilation - The unit should be situated so that its location or position does not place it in an enclosure that limits air flow to the heat sinks or vents.

1. Water and Moisture - DO NOT immerse unit in water. Make sure the seal and surrounding surfaces are completely dry before opening and to prevent moisture from damaging the internal electronics. Keep the unit dry at all times, or other objects that can interfere with proper sealing. If for any reason the seal is not making a tight seal, water may enter the unit.

CAUTION

NOTE:

1. This warranty is void if the battery is replaced by unauthorized persons; (ii) cracked or broken cabinets, or units damaged by excessive heat; (iii) damage to digital media which have been damaged by negligence or willful actions, misuse or accident, or which have been modified or repaired by unauthorized persons.

NOTE:

Introduction

Thank you for purchasing the iHome iBT74. This product is designed to provide high quality wireless sound for you. Please read this manual carefully and keep for future reference.

Maintenance

- Place the unit on a level surface away from sources of direct sunlight or excessive heat.
- Protect your furniture when placing your unit on a natural wood and lacquered finish. A cloth or other protective material should be placed between the unit and the finish.
- Clean your unit with a soft cloth only, with mild soap and water. Strong cleaning agents, such as benzene, thinner or similar solvents can damage the surface of the unit.
Limited 1 Year Warranty

Phone Numbers: a division of 2i Technologies Inc. (hereinafter referred to as "2i"), represents this product to be free from defects and hidden injuries, original defect and/or condition, to be used in the manner described in the operating instructions, when correctly stored and used within the recommended period, 2i will, at its option, either repair or replace without charge the product or part hereof if during the warranty period, 2i so desires, it may, at its discretion, replace the product without charge. This warranty is subject to the conditions of this Limited 1 Year Warranty.

Scope of warranty:

2i warranty is limited to the United States of America and does not extend to owners of the product other than to the original purchaser. This warranty is void if the product is modified or repaired by anyone other than 2i, unless such modification or repair is approved by 2i in writing.

Limited 1 Year Warranty

PhoneNumbers, a division of 20th Century Fox (hereafter referred to as "PhoneNumbers"), represents this product to be free from defects in materials and craftsmanship under normal use and service. In the event of failure of this product from the date of original purchase, PhoneNumbers will repair or replace any component of this product, at PhoneNumbers' option, which proves to be defective in materials and craftsmanship. Consult the dealer or an authorized service provider for servicing information.

This warranty is valid only if the product is used for the purpose for which it was designed. It does not cover the following conditions:

1. Products which have been tampered with or modified, or used for an unintended purpose.
2. Products subjected to abnormal use or operation.
3. Products subjected to misuse, neglect, or accidents.
4. Products subjected to improper repair, maintenance, or installation.

CAUTION

Do not expose the battery to any liquid. Always confirm that the temperature is 5°C – 35°C (41°C - 95°F) before you charge the battery.

Introduction

Thank you for purchasing the iHome iBT74. This product is designed to provide high quality wireless surround sound for your iPod, iPhone, iPad, or other Bluetooth audio device.

This instruction booklet explains the basic operation and care of the unit. Please read these instructions carefully and keep for future reference.

Maintenance

1. Place the unit on a level surface away from sources of direct sunlight or excessive heat.
2. Protect your furniture when placing your unit on a natural wood and lacquered finish. A cloth or other fabric may damage the surface of the unit.
3. Keep the unit clean with a soft cloth or other fabric. Do not use any alcohol, benzene, thinner, or similar materials.

The manufacturer is not liable for any damages caused by incorrect use of the product.
Product Name: iBT74 Color Changing Rechargeable Bluetooth Speaker with Speakerphone

Limited 1 Year Warranty
Phone Products, a division of SDI Technologies Inc. (hereinafter referred to as SDI), warrants this product to be free from defects in workmanship and materials, under normal use and conditions, for a period of one year from the date of original purchase.

The warranty does not cover damage caused by unauthorized alterations, accident, or acts of God. SDI will repair or, at its discretion, replace this product without charge. This decision is subject to the warranty period, shipping cost, or other charges incurred by SDI. The warranty does not apply to products that have been damaged or altered in any way, or that have been subject to negligence or misuse.

Disclaimers of Warranty
This warranty would only apply to product if you have received a defective product which has been damaged by negligence or willful action, misuse, or accident, or which has been modified or repaired by anyone other than SDI. SDI's liability is limited to the repair or replacement of the product at its discretion. In no event shall SDI be liable for the costs of removal or reinstallation of the product.

SDI makes no warranty or representation, expressed or implied, with respect to the use of or performance of the product under any conditions.

Customer Product Safety Guide

IMPORTANT SAFETY INSTRUCTIONS
When used in the directed manner, this unit has been designed and manufactured to ensure your personal safety. However, improper use can result in potential electrical shock or fire hazards. Please read safety and operating instructions carefully before installation and use, and keep these instructions handy for future reference.

Always keep the battery out of the reach of infants and small children. Never expose the battery to excessive heat such as direct sunlight or fire. Never use the battery pack in an electrically charged environment.

Never dispose of used batteries/electronics with ordinary solid wastes, since they contain toxic substances. If your battery, you should follow the disposal instructions below:

1. Water and Moisture - Do not expose to rain or moisture. Make sure the seal and surrounding surfaces are completely dry before operating or storing moisture from the internal electronics, or in the event that any of them become wet, dry them with a soft, dry cloth. If you do not intend to use the device for a long period of time, dry it before storing.

2. Ventilation - This unit should be situated so that its location or position does not interfere with its proper ventilation. For example, it should not be situated on a bed, sofa, cabinet, or in a place where the flow of air might be impeded.

3. Power Sources - This unit should be connected to a power supply only of the type described in the operating instructions or as marked on the appliance.

4. Cleaning - The unit should be cleaned only using a warm damp cloth. Do not use solvents, detergents, or abrasive cleaners.

5. Objects and Liquid Entry - Care should be taken so that objects do not fall into and liquids are not spilled into the appliance.

6. Attachments - Do not use attachments not recommended by the product manufacturer.

7. Lightning and Power Surge Protection - This is a common precaution to use to protect your unit during a lightning storm or when it is left unattended and unused for a month or longer, fully charge the unit before storing.

8. Overloading - Do not overload wall sockets, extension cords, or similar convenience receptacles as this can result in a risk of fire or electric shock.

9. Damage Repairing Service - The appliance should be serviced by qualified service personnel when:
   a. the power supply cable or plug has been damaged
   b. objects have fallen or liquid has been spilled into the appliance
   c. the appliance has been exposed to rain
   d. the appliance has been dropped or if the enclosure damaged.
   e. the unit exhibits unusual changes in performance or does not operate normally
   f. the appliance has been damaged during transport
   g. the appliance is not working properly when you follow the operating instructions
   h. the appliance exhibits a distinct change in performance

10. Periods of Nonuse - If the unit is to be left unused for an extended period of time, such as one month or longer, fully charge the unit before storing and then store it in a location where it will be protected from moisture, dust, and other environmental conditions.

Maintenance

Introduction
Thank you for purchasing the iBT74. This product is designed to provide high quality wireless sound signal to your Palm, iPhone, iPod, computer, PC or other Bluetooth audio device.

This instruction booklet explains the basic operation and care of the unit. Please read them carefully and keep for future reference.

Maintenance

1. Place the unit on a level surface away from sources of direct sunlight or excessive heat.
2. Protect your furniture when placing your unit on a natural wood and finished leather. A cloth or other protective fabric should be placed between the unit and the furniture.
3. Clean your unit with a soft cloth moistened only with mild soap and water. Stronger cleaning agents, such as benzine, thinner or similar materials can damage the surface of the unit.

FCC Information

FCC Radiation Exposure Statement
This equipment complies with FCC RF radiation exposure limits set forth for an uncontaminated environment.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If the equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

CAN ICES-3 (B)/NMB-3(B)

Introduction

Thank you for purchasing the IPad 74. This product is designed to provide high quality wireless sound for your iPad, iPhone, iPod, or other Bluetooth audio device. This instruction booklet explains the basic operation and care of the unit. Please read these carefully and keep for future reference.

Maintenance

1. Always keep the battery out of the reach of infants and small children.
2. Avoid exposing the battery to adverse environmental conditions such as extreme temperatures, humidity, or direct sunlight for extended periods of time.
3. Do not drop or subject the battery to impact. Handling in this manner may cause damage to the battery.
4. Do not open or attempt to disassemble the battery, as this may cause damage to the battery and void the warranty.

CAUTION

The battery used in this device may present a risk of fire, explosion or chemical burn if mishandled. Improper disposal could result in fire or explosion. Please follow the instructions below to ensure safe disposal:

1. Do not mix batteries with other types of batteries or with non-rechargeable batteries.
2. Do not discard the battery in household waste. Follow local regulations for proper disposal.
3. Do not use or store the battery near heat sources.
4. Do not attempt to charge the battery if it is not compatible with the device.

Internal Rechargeable Lithium-Ion Battery

This device uses an internal rechargeable lithium-ion battery that should be treated with care. If you suspect your battery may be dead, try charging it again. If the battery does not recharge, please contact Customer Service at 1-800-280-2792 or visit www.myipad.com. Please keep for future reference.
Limited 1 Year Warranty

Phone Products, a division of SDI Technologies Inc. (hereinafter referred to as "SDI"), warrants this product to be free from defects in workmanship and materials, under normal use and conditions, for a period of one (1) year from the date of original purchase.

Exclusions:

- This warranty does not apply to any product which has been damaged by the user or anyone else.
- This warranty does not apply to damage caused by improper use, misuse, neglect or accident.
- This warranty does not apply to damage caused by unreasonable use, abuse or failure to follow operating instructions.
- This warranty does not apply to damage caused by unauthorized modifications or repairs.
- This warranty does not apply to damage caused by exposure to rain or water.
- This warranty does not apply to damage caused by the use of any unauthorized replacement parts.

SDI will repair or, at its discretion, replace this product without charge. This decision is subject to the terms of the warranty.

Disclaimer of Warranty

This warranty gives you specific legal rights, and you may also have other rights that vary from state to state. SDI disclaims any and all warranties, expressed or implied, including any implied warranties of merchantability and fitness for a particular purpose.
