**Maintenance**

- Place the unit on a level surface away from sources of direct sunlight or excessive heat.
- Protect your furniture when placing your unit on a natural wood and lacquered finish. A cloth or other protective material should be placed between it and the furniture.
- Clean your unit with a soft cloth moistened only with mild soap and water. Do not use abrasive cleaners, such as bleach, thinner or similar materials, as these can damage the surface of the unit.

**Limited 1 Year Warranty Information**

Home Products, a division of SDI Technologies Inc. (hereafter referred to as SDI Technologies), warrants this product to be free from defects in workmanship and materials, under normal usage and conditions, for a period of 1 year from the date of original purchase.

Should this product fail to function in a satisfactory manner it is best to first return it to the store where it was originally purchased. Should this fail to resolve the matter and service will still be provided by means of any store or retailer during the warranty period, SDI Technologies will repair or replace this product without charge to you. SDI Technologies reserves the right to determine any limit to the warranty coverage based on customer misuse, abuse, or negligence.

**A Consumer Guide to Product Safety**

**IMPORTANT SAFETY INSTRUCTIONS**

- **When in the directed manner this unit has been designed and manufactured to ensure your personal safety. However, improper use can result in potential electrical shock or fire hazards. Please read all safety and operating instructions carefully before installation and use, and keep these instructions.**

**Water and Moisture**

- The unit should not be used near water. For example: near a bathtub, washbowl, kitchen sink, laundry tub, pool or spa, or in a wet basement or near a swimming pool.

**Ventilation**

- The unit should be situated so that its location or position does not interfere with its proper ventilation. For example, the unit should not be situated on a bed, sofa, rug, or similar surface, or placed in a built-in installation, such as a bookcase or cabinet, which may impede the flow of air through the ventilation openings.

**Heat**

- The unit should be situated away from heat sources such as radiators, heat registers, stoves, or other appliances (including amplifiers) that produce heat.

**Power Source**

- The unit should be connected to a power supply only of the type described in the operating instructions or as marked on the unit.

**Power-Cable Protection**

- Power supply cables should be routed so that they are not likely to be walked on or pinched by items placed upon or against them. Be sure that the power outlet is located near the equipment so that it is easily accessible.

**Cleaning**

- The unit should be cleaned only as recommended by the product manufacturer. Refer to the operating instructions for cleaning instructions.

**Attachments**

- Only attachments recommended by the product manufacturer should be used with this unit. The use of other attachments may be hazardous and will void your warranty.

**Lightning**

- For added protection for this product during a lightning storm, or when it is left unattended and unused for long periods of time, unplug it from the wall outlet and disconnect the antenna or cable system.

**Overloading**

- Do not overload wall outlets, extension cords, or integral convenience receptacles as this can result in a risk of fire or electric shock.

**Period of Nonuse**

- The unit should not be exposed to dripping or splashing and objects filled with liquids, such as vases, should not be placed on the unit.

**Objects and Liquid Entry**

- Spilled or liquid entry into the product should break so that objects do not fall and liquids are not spilled into any openings or vents located on the product.

**Maintenance**

- The unit should be serviced by qualified service personnel when:
  - the power supply cord or plug has been damaged.  
  - objects have fallen into or liquid has been spilled onto the product.
  - the product has been exposed to rain.
  - the product does not appear to operate normally or exhibits a marked change in performance.
  - the product has been dropped or the enclosure damaged.

**Service**

- The unit has been dropped or the enclosure damaged.

**Disposal of This Product**

This device complies with Part 15 of the FCC Rules, operation is subject to the following two conditions:

1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

DH 10/95

This Class B digital apparatus complies with Canadian ICES-003.

This equipment complies with the limits for a Class B digital device as specified in Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

**Disclaimer of Warranty**

This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

The entire liability of SDI Technologies and its suppliers, and the entire, exclusive and sole remedy for the holder of this or any other warranty for the product is limited to the repair or replacement of any product deemed defective by SDI Technologies in writing. SDI Technologies shall not be liable for any incidental, special, direct, indirect, exemplary, or consequential damages, or for any loss of data, software, or profits, actual, exemplary or punitive damages. (Some states do not allow limitations on implied warranties or exclusion or limitation of incidental or consequential damages, so the above limitations may not apply to you.) This warranty gives you specific legal rights, and you may also have other rights which vary by state to state.

Using the iHM79

To unlock and expand each speaker, grip the top and bottom and give a small twist counterclockwise. DO NOT pull hard once open, as the built-in spring will automatically extend the speaker to its proper position.

To compress and look speaker, line up lock tab on speaker top with lock/unlock icon on base. Press speaker down from the top and twist clockwise to lock in place.

The speakers have magnetic bases. They can be joined together for storage or for convenient travel with the included travel pouch. To separate the speakers gently pull them apart.

Connecting the iHM79

- Connect a mini-USB plug to the input jack on each speaker.
- Connect the stereo 3.5mm audio plug to the headphone jack or line-out of any audio device.
- Slide the Power Switch of each speaker to the ON position. The blue power light will come on.
- Press play on your audio device and adjust its volume to listen to audio.

Note: the larger USB plug is used for charging only, not for audio. Please refer to next section for charging instructions.

Charging the iHM79

The iHM79 is powered by a rechargeable battery in each speaker. When the blue power light dims, or if you start to notice sound distortion at higher volumes, it's time to recharge the batteries.

- Connect the larger USB plug to a powered USB port, such as that on a computer. The light on the speaker will turn to red while charging and turn blue when fully charged.

Note: you can continue to listen to the speakers while they are charging.

Separate the Two Speakers

Charging the iHM79

NOTE: This product has magnets in the base of each speaker. To avoid interference or possible damage, do not place speakers directly on electronic devices such as computers or monitors.
